

# SETRAC Injury Prevention Committee

Thursday, June 13, 2019  
 SETRAC Conference Center, 1111 N. Loop West, Suite 160, Houston, TX 77008

TOPIC	DISCUSSION/RECOMMENDATION	ACTION/FOLLOW-UP
<p><b>Presenter: Dr. Michelle McNutt</b></p> <p><b>Topic: Call to Order</b></p>	<p>Dr. McNutt called the meeting to order and introductions were made.</p>	<p>The committee has no further recommendations</p>
<p><b>Presenter: Robin Garza</b></p> <p><b>Topic: Measurable Goals</b></p>	<p>Kati Bare presented on behalf of Robin Garza. Falls prevention, drowning prevention, and firearm safety workgroup goals reviewed. Discussed having master trainers that are active in the RAC to close the communication gap. Goals will be emailed to injury prevention members.</p> <p>Committee agreed to table "host quarterly collaborative meetings" at this time. Dr. McNutt noted members can add to goals as meetings continue.</p>	<p>SETRAC to email goals to committee members</p> <p>Closed</p>
<p><b>Presenter: Workgroup Leaders</b></p> <p><b>Topic: A Matter of Balance &amp; Healthy Steps</b></p>	<p>1 class currently being held with another starting soon. Planning leader classes in the future. Pending funding. Discussed additional evidence based fall prevention classes such as Healthy Steps which consists of two 2hr sessions versus eight. It is roughly \$6500 to train 25 people plus travel costs for instructors. Grant funding needed for this program.</p> <p>New workgroup leader will be Kati Bare with Kacey Sammons as co-lead.</p>	<p>The committee has no further recommendations</p>
<p><b>Presenter: Jenny Bennett</b></p> <p><b>Topic: Drowning Prevention Survey</b></p>	<p>Survey results reviewed. 26 hospitals responded. Three were Level III and IV trauma centers. 73% reported the emergency department is responsible for reporting submersions. 35% reported not knowing the number of drownings reported to the State. Per DSHS, 25% are being reported. 65% believe more education is needed. Working with GETAC regarding education. Over 50% have no education available.</p> <p>Plan: Continue to discuss at Pediatric meeting. Presenting to the Perinatal committee on July 10<sup>th</sup> and EMS committee on July 19<sup>th</sup> in collaboration with Kacey Sammons. Noted the issue with the submersion registry is that people</p>	<p>Amy to provide contact for Medical Examiner for further collaboration</p> <p>Members to find out who is responsible in their facility for reporting submersions and see if additional education is needed</p>

	<p>are not getting the correct information for submission as it starts with EMS gathering the information at the scene. Amy to provide contact for Medical Examiner for further collaboration.</p> <p>Dr. McNutt inquired if SETRAC can reach out to press when a drowning occurs for press conferences on drowning prevention. TXCH Woodlands is launching water safety campaign Thursday with press coverage. Flyers provided. Press conferences may need to be driven by pediatric hospitals in the region.</p> <p>Jenny requested all members find out who is responsible in their facility for reporting submersions and see if additional education is needed. Speak with educator, ER Director, Pediatric Director or Perinatal Director to see how education can be provided to patients.</p> <p>Stephen inquired about initiatives for adult drownings. Dr. McNutt requested Stephen send her an email regarding those cases.</p>	<p>Speak with in-hospital educator to see how education can be provided to patients</p>
<p><b>Presenter: Workgroup Leaders</b></p> <p><b>Topic: Stop the Bleed</b></p>	<p>Sarah Beth noted the National Stop the Bleed month program was a success with roughly 15 partners. Per Kat, 14 classes were held with 74 instructors and 551 trained. Kati noted training 300 students on May 1<sup>st</sup>.</p> <p>Conference calls will be held versus in-person meetings unless needed.</p> <p>House Bill 496 will be approved meaning all high schools and charter schools are required to have STB kits and trainings. Schools will have to come up with funding required to install the kits. Clarification on training requirements needed.</p> <p>Sarah Beth to clarify if it will be a 2 hour training on how to apply a tourniquet or a true STB class. Noted the new required STB presentation is shorter and</p>	<p>Kacey to obtain list of which EMS agencies that are reaching out to schools to provide STB education</p> <p>Sarah Beth to clarify House Bill 496 training requirements</p>

	<p>could possibly be completed within 1 – 1½ hours. Recommended training the school nurses and let them teach.</p> <p>Kacey to obtain list of which EMS agencies that are reaching out to schools to provide education. Will suggest this at EMS committee meeting.</p>	
<p><b>Presenter: Workgroup Leaders</b></p> <p><b>Topic: Firearm Safety</b></p>	<p>2018 RAC data reviewed. Top locations are Southwest and Sunnyside. Dr. McNutt recommended referring this to the data subcommittee to deep dive as number seem low. Dr. McNutt to speak with Rebecca regarding data validation.</p> <p>Noted coding may vary as the term “assault” can be translated differently.</p> <p>Dr. McNutt to speak with SETRAC regarding funding for firearm safety programs. Noted one barrier to accomplishing goals was an appearance of level I and II facilities versus level III and IV facilities instead of a regional approach. Regional funding needed. Will provide follow-up at next meeting.</p> <p>Cradle to Grave is a 90-minute to 2-hour long program for high school students to have an immersive experience as a trauma patient. OR and morgue is visited then speakers present to the students. Funding required. May find barriers with getting into the schools. Recommended going into schools after an incident occurs. Can select targets based on heat map. Recommended targeting detention centers and alternative schools. Requested evidence of effectiveness.</p> <p>Healing Hurt People program is a hospital-based intervention after someone has experience gunshot trauma. Requires more resources, funding, and effort but more effective. It is a part of the national hospital-based violence prevention program network. Reaches people from ages 8-30 that use certified PIERCE specialists who have been in a gang or involved in the</p>	<p>Dr. McNutt to speak with Rebecca regarding accuracy of data</p> <p>Dr. McNutt to speak with SETRAC regarding funding for firearm safety programs</p> <p>Kati Bare/Chris Campbell to provide evidence of effectiveness of Cradle to Grave program</p> <p>Kati to provide Dr. McNutt with the cost of the Healing Hurt People program</p> <p>SarahBeth to share articles from Medical Summit.</p>

	<p>streets and are able to now teach in the hospital. Follow-up care provided through this program after discharge includes follow up calls, home visits, mental health resources, food, job assistance, etc. Noted this program must be run in-hospital by a Master's prepared Social Worker. May have barriers obtaining an FTE for this program.</p> <p>Recommended starting the conversation with current in-hospital social workers regarding interventions. Noted jail/prison social workers may be willing to assist.</p> <p>Kati to provide Dr. McNutt with the cost of the Healing Hurt People program.</p> <p>Bulletins put out by the ACS has shown evidence that this program is effective. Will review evidence of effectiveness in hospitals and engage in-hospital Social Workers. Medical summit on Firearm Injury Prevention had proceedings in Feb. Sarah Beth will share articles.</p> <p>Party Firearm Prevention, based in Toronto, is structured similar to Cradle to Grave.</p>	
<p><b>Presenter: Dr. Michelle McNutt</b>   <b>Topic: Distracted Drivers</b></p>	<p>Recommended focusing on the current workgroup initiatives.</p>	<p>Closed</p>
<p><b>Next Meeting</b></p>	<p>Thursday, August 8, 2019 at 10:00am to 11:00am          SETRAC Conference Center          1111 N. Loop West, Houston, TX 77008</p>	
<p><b>Adjourned</b></p>	<p>There being no other items for discussion, Dr. McNutt adjourned.</p>
