<p>Presenter: Dr. Michelle McNutt Topic: Injury Prevention Committee Update</p>	<p>Revisit standardizing the highest level trauma activation criteria for adults for level I and II hospitals. Taskforce with representation from all 6 hospitals involved. Noted diversity in criteria language between hospitals. Suggestions: Blood Transfusions: "Trauma Patients Receiving Blood Products Prior to Arrival" Tourniquet Use: Approved Pelvic Fractures: Not an ACS requirement. This was recommended to be presented at the EMS Committee by Life Flight. Will obtain buy-in during this meeting. GSW: Removed from ACS requirements in 2018. Approved. Dr. McNutt to finalize the verbiage and send to Amy to email to the level II Medical Directors for buy-in. Official vote at next meeting. Voting pending feedback from EMS Committee. Noted, if anyone has recommendations for "above and beyond" criteria, bring to the RAC for discussion to maintain standardized criteria.</p>	<p>Dr. McNutt to finalize the verbiage and send to Amy to email to the level II Medical Directors for buy-in.</p>
