| TOPIC                                                                                                                                | DISCUSSION/RECOMMENDATION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | ACTION/FOLLOW-UP                                                                                                                  |
|--------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| <b>Topic: Call to Order</b>                                                                                                          | Meeting called to order. Minutes approved with no changes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | The committee has no further recommendations                                                                                      |
| <b>Presenter: Grace Farquhar</b><br><br><b>Topic: LVO Data Collection</b> <ul style="list-style-type: none"> <li>Jot Form</li> </ul> | <p>Concerns:</p> <ul style="list-style-type: none"> <li>Length of form</li> <li>Facilities on diversion</li> <li>No questions regarding bypassing a primary center</li> <li>Will primary be able to complete the first part of page?</li> <li>Report from hospital to hospital needed</li> </ul> <p>Form is for LVO transfers inside of RAC-Q only. Donald noted information can be found in the patient's record after transfer. The EMS database has a place to enter diversion. The form should be filled out by comprehensive facilities only. Requested form be sent to subcommittee members. Return to baseline can be put in the "other" category. Subcommittee requested AHA new policy information, link to Genentech Stroke video and June 6<sup>th</sup> webinar, and link to jot form to members.</p> | Amy to send AHA new policy information, link to Genentech Stroke video, June 6 <sup>th</sup> Stroke webinar, and link to jot form |
| <b>Presenter: Dr. Sean Savitz</b><br><br><b>Topic: D2N in 30 minutes</b>                                                             | <p>CEO report currently reflects Door to Needle in 60 minutes. Changes to the time on CEO reports will be discussed with the Board prior to making any changes. 60, 45, and 30 minutes will be tracked for a year for a baseline.</p> <p>Jodie Garcia to send information regarding adding first pass/re-vascularization and time of thrombectomy to the jot form under groin puncture.</p>                                                                                                                                                                                                                                                                                                                                                                                                                       | Jodie Garcia to email requested additions to Grace                                                                                |
| <b>Presenter: Dr. Sean Savitz</b><br><br><b>Topic: Measurable Goals</b><br><br><b>Topic: Stroke Alert</b>                            | <p>Laura griffin requested 2 measurable goals to decrease RI/TM by System. Houston Methodist will mention this at System stroke coordinator meeting. Currently working on standardizing the scripting regarding how tPA is presented.</p> <p>Change of stroke alert if within 3.5 hours of Last Known Well to 4.5 hours agreed upon and approved by the subcommittee.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                         | Change of 3.5 hours to 4.5 hours approved by the subcommittee                                                                     |
| <b>Topic: Open Discussion/ Education Opportunities</b>                                                                               | <p>Stryker has program for NIH stroke scale. Hospital must request this 3-hour course regarding TM/RI. Contact Stryker rep for further info. They will come out and train nurses and train the trainer.</p> <p>Requested participation at June 6<sup>th</sup> webinar regarding RI/TM. Certificates will be provided.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | The committee has no further recommendations                                                                                      |
