

SETRAC STEMI Coordinator Meeting

Wednesday, January 12, 2022
Virtual Meeting

Page 1 of 2

TOPIC	DISCUSSION/RECOMMENDATION	ACTION/FOLLOW-UP
Presenter: Shawna Robinson / Tracy Akin Topic: Welcome and Introductions	The minutes from the December 1, 2021 meeting were approved as written.	
Presenter: Olga Otega Topic: Standardized Guidelines for Non-PCI Facilities / Non-PCI Toolkit Revision	Olga Ortega, STEMI Coordinator for Baylor St. Luke's Medical Center presented proposed revisions for the Non-PCI Toolkit that is currently on the SETRAC website. The three-page document was condensed to a one-page document. Suggestions to remove verbiage to be more general rather than name specific drugs or medications used for treatment.	Revised document will be sent to the workgroup for review.
Presenter: Tracy Akin / Amy Malish Topic: Data/QI Focus on First Hospital DIDO Times	Patients with a DIDO time of less than thirty minutes is trending downward slowly. September 2021 DIDO times were greater than expected, but that is more than likely related to the surge of the Delta Variant and the protocols in place for COVID. With that, more patients presented at FSED than acute care facilities during this time as well. Goal for 2022 is to collect more extensive data to collect this information. The smaller facilities are in need of additional education for DIDO times.	The committee has no further recommendations
Presenter: Christy Means / Catherine Bissell Topic: Education - Call for Volunteers! - Cardiac Care Education Series	Tonya Carter will send the education survey results to the group. Speakers are needed for the possible topics that were included in the survey. Please share any ideas or speakers with Christy Means or Tonya Carter.	The committee has no further recommendations
Presenter: Tonya Carter Topic: Protocols Revise SETRAC Cardiac Webpage	The Non-PCI Toolkit will be uploaded once it was finalized. If anyone has anything they would like uploaded to the Cardiac link on the SETRAC website, please send them to Tonya Carter to be posted.	The committee has no further recommendations
Open Discussion	New data points for consideration presented to make the data collected by the region more valuable and extensive.	The committee has no further recommendations
Next Meeting/Adjourned	Date: February 23, 2022, 10:00am to 11:00am - Virtual Meeting
