TOPIC	DISCUSSION/RECOMMENDATION	ACTION/FOLLOW-UP
Presenter: Dr. David Weisoly Topic: Call to Order/Approval of Minutes	Dr. Weisoly welcomed the group. Minutes from the September 8, 2021 meeting were approved with no changes. Attendance will now be tracked by going to www.setrac.org/perinatal . This is where you will also enter your code words.	The committee has no further recommendations
Presenter: Donald Morrison Topic: Vice Chair EMS Committee	Martin Delaney was approved by the committee members to assume the Vice Chair for the EMS position.	The committee has no further recommendations
Presenter: Emily Ybarra Topic: Neo MegaCode	Angela Koerner, Director and Program Manager of Neonatal ICU at Ben Taub and Dr. Joseph Garcia-Prats, Program Medical Director at Ben Taub Neonatal ICU presented their root cause analysis and findings for term newborns who required prolonged resuscitation. The facility formed a Multidisciplinary Committee to develop the Neo MegaCode Algorithm to improve the processes and procedures both during and after the MegaCode occurrence. The process was recognized as a Best Practice by AAP state NICU reviewers in 2017 and 2020, as well as ACOG 2018 state reviewers for maternal designation. Please reach out to Angel or Dr. Garcia-Prats should your facility be interested in the program or need assistance.	The committee has no further recommendations
Presenter: Alicia Lee Topic: March of Dimes Report Card	Alicia Lee, Director, MCH Collective Impact for the Greater Houston Market presented the findings from the 2021 March of Dimes Report Card. The report shows that Texas received a "D" in the overall grading, rating 40 th out of 52. Preterm birth rate has slightly declined from 11% to 10.8%. Harris County is at 11.9%, which is an "F" and has worsened from the previous year. The report card shows that 1 out of 4 women in Harris County are receiving inadequate prenatal care.	The committee has no further recommendations
Presenter: Dr. Catherine Eppes / Dr. Kelli Burroughs Topic: Maternal Committee Update	Due to the rise in COVID cases, the RAC PRC Alliance postponed their meeting until January 2022. TCHMB summit will be held February 17-18, 2022, and will be focused on patient centered care. The December 6, 2021 TCHMB workgroup meeting covered "Recognition and Response to	The committee has no further recommendations

	Postpartum Preeclampsia in the ED". The focus of the presentation is to improve the outcomes of patients presenting with signs and symptoms of preeclampsia in the ED. Goals for the project include improving teamwork among the ED and Maternal Department; to enhance ED provider education; and to develop and distribute clinical management tools. If you or your facility has questions or seeks assistance, please email PPED-TCHMB@utsystem.edu. TCHMB Community Committee held their first webinar on October 22, 2021 covering REaL Data in Healthcare. There will be two more webinars held in the future for those interested. The workgroup has been working on identifying data points to collect. Funding is being sought for a statewide database. Texas AIM Plus Severe Hypertension in Pregnancy Learning Collaborative will be held in January 2022. Concluded COVID support statewide debriefing call. The AIM data center is now open for hospitals for hospitals to report their data. Resume Action Period Call 01/20/22 for data collection, and is held monthly on the third Thursday of the month. Learning sessions are available virtually in April and May.	
Presenter: Dr. Elizabeth Eason/TCHMB Staff Topic: TCHMB Neonatal Newborn Admission Temperature Project	RAC Q has an 89% participation rate in the project. Data for most recent quarter is due January 361, 2022. TCHMB holds office hours weekly on Wednesday from 12-2pm via Zoom. Meeting ID 941 8630 1317 / Passcode 123559 or dial in 1-346-248-7799. The data has been submitted sporadically, please make sure complete and timely data is submitted.	The committee has no further recommendations
Presenter: Dr. Eugene Toy Topic: Maternal Mortality Workgroup	The workgroup met on November 29, 2021 to review MEWS (Maternal Early Warning System) Triggers. Once MEWS triggers are identified, appropriate staff needs to be at bedside within 20 minutes of one severe sign or a combination of two signs.	The committee has no further recommendations
Presenter: Topic: Perinatal Planning Workgroup	No update at this time as the group has not met. There will be an update at the next meeting.	The committee has no further recommendations

TOPIC	DISCUSSION/RECOMMENDATION	ACTION/FOLLOW-UP
Presenter: Dr. Lisa Owens Topic: Low Birth Weight Infant Mortality Workgroup	Dr. Owens was not able to attend today's meeting, but Susan Romero announced that Dr. Lisa Owens will be stepping down as the lead for the workgroup and they are seeking someone to fill that role. Kendra Fohl reported that the decision was made for the workgroup to continue, and they are seeking new topics to produce toolkits.	The committee has no further recommendations
Presenter: Dr. David Weisoly Topic: Perinatal QI Workgroup Regional Data Review January 2019 – June 2021 Perinatal Data	Data has been reviewed and corrected where need be for data collected from January 2019 through June 2021. Data has been reviewed from 34 facilities in the SETRAC region and includes Level II, III, and IV designated facilities. The data presented today will change once the facilities with missing or incomplete data submit theirs. IF your facility has not submitted data or have data that needs to be revised, please submit as soon as possible. National references will be overlayed in the data presented in the future for comparison on where our region stands verses national statistics.	The committee has no further recommendations
Presenter: Kendra Fohl Topic: Perinatal QI Workgroup Neonatal and Maternal Program Manager Meeting	Meetings will resume on January 24, 2022. A Survey Monkey is being sent out to gather ideas and topics that the group would like to discuss.	The committee has no further recommendations
Presenter: Dr. Madhu Kulkarni & Jon Fry Topic: Perinatal QI Workgroup Perinatal QI Database Update	Q2 2021 Neonatal data is past due as of August 31, 2021. Q3 Neonatal and Maternal data is past due as of November 30, 2021. Please invite the coordinators at your facility submitting the data to be a part of SETRAC committee meetings. Data is required for designation status to be obtained.	The committee has no further recommendations
Presenter: Dr. Tiffany Molina & Dr. Elizabeth Sager Topic: Perinatal QI Project Group Updates Breastmilk at Discharge	End of the Year Update reviewed. By January 1, 2022 the percent of infants discharged from SETRAC NICU's receiving their mother's milk by 10%. SETRAC goal of NICU admits greater than 80% and greater than 40% from 30% for VLBW. Please ensure accurate and timely data is submitted to reflect as true and accurate data as possible. Levels of Achievement will be rounded to whole numbers for awarding purposes. 73% of NICUs are participating in an ongoing project and 95% state they have been able to	The committee has no further recommendations
