Grace will let everyone know at the next data meeting when ok to use. For the few hospitals that are not using GWTG there will be a template sent in an excel spreadsheet with instructions on how to save and upload information coming soon. Grace is putting together Q1 and Q2 data for review before the CEO reports go out. Grace will send the report out after the new year due to the holidays, vacation, and GWTG currently being offline. The report will be sent out the week of January 9th giving a nine-day review period. GWTG is currently down there may be some things to revisit once it comes back online because of the new IRP. If you are a superuser for your organization there is a 1:00pm meeting part 1 on transitioning to the new system. Due to conflicting schedules the EMS committee meeting was canceled. Additional filters that will be added are how many presented within 4.5 hours of LKW, patient location when the symptoms were discovered, DTN times, which facilities the patient was presented at primary, comprehensive, stroke support center, NIH, or MRS.
