TOPIC	DISCUSSION/RECOMMENDATION	ACTION/FOLLOW-UP
Presenter: Dr. Bryan Kharbanda Topic: Call to Order/Approval of Minutes	Dr. Kharbanda called the meeting to order. Minutes from May 22, 2024, were approved with no changes. Attendance will be tracked by going to www.setrac.org/stroke . This is where you will enter your code words at the beginning and end of the meeting.	The committee has no further recommendations
Presenter: Vi Nguyen-Baylor St. Luke's Medical Center Topic: Best Practice Presentation	Vi Nguyen is the Stroke Coordinator from Baylor St. Luke's Medical Center in the neuroscience department. She presented on her facility best practice on Internal Metrics to meet with the 2022 ICH Guidelines & talk about preventing hematoma expansion. Vi started by giving some background information on her facility. BSLMC-TMC is a Comprehensive Stroke Center certified by DNV. She showed slide with the Neuroscience team, and introduced the members who were also in attendance at this meeting, including Dr. Rao who is the chair of this committee. Vi stated this quality initiative project was inspired in February 2024. She stated the ISC had a nursing presentation on their "Implementation of acute blood pressure management". Also, Vi stated that AHA had a great webinar on "Anticoagulant Reversal in the ICH patient" these two events inspired them to start this quality improvement ICH project. Vi showed a slide on ISC Feb 2024 spotlight. Code ICH- Ischemic Stroke Time Metrics and Proposed Hemorrhagic Stroke Time Metrics. Code ICH – Internal Measures 1. Acute blood pressure control: door to target SBP 60 minutes or less 2. Reversal ICH: DOAC+PPC (k centra) door to PPC 90 minutes or less. The plan was to be mimicking ischemic processes to meet guidelines and/ or time to treatment. She stated her facility incorporated monthly meetings, updated EPIC Cardene titration instructions, list EPIC Order Set, and Pilot Study Neuro ICU: Clinical Decision Support Tool by Decisio Health Insight IQ. She slowed slides of the overall protocol and the metrics broken down, she also showed handouts they provided to their team members and staff. She showed a	The committee has no further recommendations.

	slide on the CDS Tool: On-demand analytics, visualization, and timely interventions. Dr. Rao added some insight and a deeper explanation on the Decisio Health Insight IQ tool. He stated the idea is to organize the data in a way that's more relevant for the team taking care of the patients at bedside.	
Presenter: Melanie Aluotto Topic: SETRAC QI Program Topic: Stroke Regional Plan	Melanie Aluotto reminded the members of the SETRAC QI program. The purpose is to give a platform to submit case reviews, trends, or any concerns / issues in the region and the QI medical directors would look at those issues to find resolution. She shared the link for all that might be interested. There were questions and open discussion. Melanie stated based on the data, we will definitely be working on some regional projects Melanie talked about the Stroke Regional Plan. SETRAC sent out the plan for voting. She stated, the plan was sent out, reviewed and voted on. The plan was supposed to go to the board for final approval, but the July meeting was cancelled due to the storm. It will be presented to the board at the rescheduled meeting next month in August. There were a few questions and open discussion.	The committee has no further recommendations.
Presenter: Grace Farquhar Topic: Rehab Utilization/ Patients arriving outside of 4.5HRS LKW	Grace informed the members there is a password protected dashboard for Rehab Utilization on the website. The link has been sent and its specifically for hospitals to look at because some of the data is raw data, and SETRAC wants to make sure all facilities have the opportunity to upload missing data and confirm the data is accurate. It will eventually go out to the public. Grace stated there is a dashboard being created for patients arriving outside of 4.5hrs LKW. It needs to be reviewed further by the data subcommittee to discuss and go over some changes. Once those data points have been determined what metrics will be included on the dashboard, it will then be presented to the Stroke Coordinators.	The committee has no further recommendations.

TOPIC	DISCUSSION/RECOMMENDATION	ACTION/FOLLOW-UP
EMS Metrics for Stroke	Grace mentioned, EMS metrics for stroke. Grace stated, SETRAC is still working with the EMS groups to determine the best way to get data from them, they suggested giving SETRAC all their data, and SETRAC can then take what's needed. Currently waiting Department of State Health Services. EMS reports to the state, SETRAC is supposed to get that information from the state registry. Grace stated EMS stated as long as we can get the data from NEMSIS, we can have all data we need. The challenge comes with getting the data from that NEMSIS, because a request needs to go through the state as far as the NEMSIS data. Grace stated, for now if we want to review EMS metrics, we must rely on GWTG. There was questions and open discussion on this topic.	
Presenter: Dr. Rao Topic: Old Business Thrombolytic Usage ISC Abstract (update)	Dr. Rao ISC Abstract was accepted and published. He stated they did another self-analysis of the data in demographics. He will send a copy of what was found. He stated there were some discrepancies in the outcomes.	The committee has no further recommendations.
Presenter: Susan Zamora/ Stacey Day Topic: Data Subcommittee Update	Melanie stated this will be deferred, as the last meeting was canceled due to the storm. No update currently.	The committee has no further recommendations.
Presenter: Tonia Shelton Topic: Stroke Coordinators Subcommittee	Tonia recapped the best practice from HCA HH Southeast that was presented at the Stroke Coordinators meeting. They presented on a process of Kios sign-in in there ED department. She felt it was good information that was shared which was informative and impressive. She also recapped the discussion to determine a specific area of focus for this committee. The discussion was on deciding if Rehab Utilization vs Extended Strokes would be the area of focus. It was determined to focus on 1 instead of both. A survey/ questionnaire will be sent to determine what topic will be focused on out of these 2 issues. Tonia stated the goal is to focus on a particular item, as a region we can focus on.	The committee has no further recommendations

TOPIC	DISCUSSION/RECOMMENDATION	ACTION/FOLLOW-UP
Presenter: Merjani Garcia Topic: Stroke Education Workgroup	Merjani announced the next 2 hospital that are scheduled to present at the September stroke committee and stroke coordinators meeting. Merjani showed the stroke education calendar for 2024 to the members. She informed the members if anyone needs to make changes to their schedule date that can be done.	The committee has no further recommendations
Presenter: Members Topic: Open Discussion	There was a question about the status of the heat map on extended window stroke demographics that was previously discussed. Grace stated because the data subcommittee didn't get to meet due to cancelation, there is currently no update on that. However, she stated the rehab heat map is available for review for strokes in general based on zip code. There was also open discussion on an Emergency Disaster Plan. Melanie suggested putting together a workgroup and will send out a request for volunteers. There was more open discussion between the members.	The committee has no further recommendations
Next Meeting / Adjournment	There being no other items for discussion, the meeting was adjourned. Next meeting will be held Wednesday September 24, 2024, at 2:00pm – 3:30pm	Code Words Hurricane/ Over
