

Follow-up to Questions on Healthcare Briefing call 6/17/2026

As discussed during today's meeting, below are the responses to the two questions raised during the call:

1. City of Houston Heat Advisory Index

Per the City of Houston Heat Standard Operating Guidelines (SOG), a heat advisory is issued when:

The temperature reaches or exceeds **103°F** and/or the **heat index reaches or exceeds 108°F** for **two or more consecutive days**.

2. Will the City of Houston Open Cooling Centers?

At this time, City of Houston facilities will be available for cooling purposes during their normal business hours throughout this week. Residents are encouraged to utilize city facilities such as Community Centers and Multiservice Centers, Libraries as needed to seek relief from the heat.
